How to download manuals for applications on eSupplierConnect portal

You can access the support manuals for specific applications directly from the "Application Launchpad" section

The screenshot shows the eSupplierConnect portal interface. At the top, the Stellantis logo is on the left, and the eSupplierConnect logo with the text 'Welcome: LORENZO, FORNERO' is on the right. Below the logo is a navigation bar with tabs for 'Global Home', 'Enlarged Europe' (highlighted with a red box), 'LATAM', 'North America', and 'APAC'. Underneath this is a secondary navigation bar with 'Home', 'Bulletins', 'Applications' (highlighted with a red box), 'Reference', and 'Corporate Focus Areas'. On the left side, there is a sidebar with a 'CLOSE MENU' button and a section titled 'Applications Launchpad' (highlighted with a red box) containing links for 'Request Applications' and 'Requests on my User ID'. Below this is a 'MY FAVORITES' section. The main content area is titled 'My Applications' and includes a 'Show Search Criteria' link. Below that is a table with columns for 'Application Name', 'Info', 'FAQ', and 'Manual'. The table lists several applications, with the 'Manual' column containing document icons (highlighted with a red box) and star icons. The applications listed are: beStandard, Capex & Services Sourcing Tool, CAPMAN, CATnet, CENTS -- 3270, CHAMPS/ERS, and Change Management Work Flow (CMWF) - Workflow ODM.

Application Name	Info	FAQ	Manual	
beStandard				
Capex & Services Sourcing Tool				
CAPMAN				
CATnet				
CENTS -- 3270				
CHAMPS/ERS				
Change Management Work Flow (CMWF) - Workflow ODM				

You can refer to your administrator for:

Check who your administrator is and get access to eSupplierConnect

- To check your administrators you should go on **Global Home - Self Service - User Info - Table “Own Supplier Security Administrators”**.
- To get access to eSupplierConnect portal you can perform a self registration that will be then approved by the administrator of the code inserted (if already administered) or by a Stellantis internal user (in case of new registration) or ask to your administrator to register yourself to eSupplierConnect portal

Add applications to administered user, modify roles and add/remove supplier codes from an application

- You can autonomously request a new application from “Enlarged Europe / LATAM / North America / APAC-Applications - Request Application” area or request updates on your application profiles by following the path “Global Home - Self service - User application manager”. Alternatively, you can ask your administrator to add applications to your profile, modify roles and add/remove supplier codes for your granted applications.

Add/remove supplier codes from an organization

- This function is available for your administrator in order to add codes into the Administration Group you belong to. This will allow you to request visibility on a certain application for missing supplier code.

Modify the data of an administered users

- You can autonomously modify your personal data from “Global Home - Self service - User Info”. Alternately through the functionality “Modify” your administrator can update your personal data according to your instructions (such as email, address, phone number)

STELLANTIS
